

What can you do!

We need their support in the form of donations in kind and money.

An overview of our completed and current projects can be found on our homepage. There you will also find out what donations are currently needed in kind.

On our homepage you can also inform yourself about a membership in our agreement.

Thank you for your Support.

Join us!

You too can get involved.

Where to find us:

Carmen and Andreas Stengel
Goethestraße 37
35510 Butzbach, Germany

BIC: HELADEF1FRI
Sparkasse Oberhessen

When many little
people in many little
places do many little
things, they can change
the face of the world.

african proverb

We are a few of those little people

Who we are

We are a few of those little people who want to make other people's lives a little easier and put a smile on their faces.

Therefore, in September 2017, we founded a nonprofit association that wants to support the people of the Cape Verdean island of Boa Vista with donations in kind and money.

After we have already been to Boa Vista several times and learned how the population lives partly in the poorest conditions, it was clear to us that we had to help here.

Water supply point in Sal Rei.

Brief insight into great poverty.

Why ?

Boa Vista is one of ten inhabited islands in Cape Verde. The population on Boa Vista does not always have electricity in some villages, nor does it have running water. The island is characterized by great drought. Without water, there is no agriculture. Without agriculture, there is no food product.

So almost everything has to be imported with ships. For the population, the imported goods are very expensive and sometimes unworkable. Some live from fishing or from the production of goat cheese and goat meat, others earn their living in the tourist hotels.

What we can do

Since 2018 we ship a sea container with your donations to Boa Vista every year. We are in contact with a local authority in Sal Rei. The authority will distribute the distribution of donations in kind together with our members on site.

Many parents cannot afford their children's school equipment. Therefore, we have equipped all children on the island for the third year in a row.
